Nationality: Indian | Date of birth: 01.02.2005

Education

University of Duisburg-Essen — Duisburg, Germany
B.S. in Computer Engineering — *Oct. 2023 – Oct. 2026*
Grade: 1.4

Freshman Institute, Fachhochschule Aachen — Geilenkirchen, Germany
Studienkolleg — *Oct. 2022 – Jun. 2023*
Grade: 1.4

The Emirates National School — Sharjah, United Arab Emirates
CBSE Grade 12 — *Apr. 2021 – Jun. 2022*
Grade: 96.6%

Experience

Working Student in IT Architecture — Jun. 2025 – Present
Uniper IT — *Düsseldorf, Germany*

- Architected a Python workflow in GitHub Actions to extract Confluent Kafka API resources across 200+ applications and creating Mermaid.js Markdown files, automating architectural documentation on GitHub Wiki
- Orchestrated an enterprise-wide file share migration of ≈ 5TB worth of data by provisioning Azure infrastructure via Terraform and automating deployments through CI/CD DevOps pipelines
- Developed an AI agent using Microsoft Copilot Studio to dynamically generate mermaid architectural diagrams and populate documentation from enterprise data, reducing manual effort by 50%
- Engineered a Docker-containerized telephone name resolution pipeline using Python and OpenLDAP, configuring custom network routing to synchronize directory data with Fanvil telecom hardware
- Built a voice recording archival app storing over 300,000 voice recordings, utilizing Azure Function Apps for API data retrieval, optimized database schemas for efficiency and enhanced the UI/UX using Vue.js and Nuxt UI
- Implemented enterprise datasets using Collibra to establish data lineage, metadata management, and cataloging for core business assets
- Drafted Architecture Outline Documents for multiple core business applications
- Developed a Power BI dashboard for IT application assessment logs, providing stakeholders with insights through visualizations and advanced filtering

Student Assistant — Jun. 2024 – May. 2025
Faculty of Engineering, University of Duisburg-Essen — *Duisburg, Germany*

- Developed and maintained a web interface for the university research database
- Integrated backend database functionality with front-end user interfaces using PHP and MySQL
- Created dynamic web pages and managed content for the university website using the CMS Imperia

Intern — Oct. 2022 – Nov. 2022
Fachhochschule Aachen — *Jülich, Germany*

- Created a full-stack restaurant ordering project using PHP, HTML, CSS, MySQL and Python

Projects

Zero Trust Security Design for EV Charging Stations | *Python* — Jun. 2026 – Sep. 2026

- Developed a zero-trust security solution for EV charging stations using Random Forest Classifiers
- Reduced compute overhead significantly by using pure OpenFlow-based statistics, while maintaining similar discriminative power compared to NFStream

iseportal.com | *Typescript, PostgreSQL, Next.js* — Jun. 2025 – Apr. 2026

- Developed and deployed a full-stack web platform serving ≈500 users for helping international engineering students at the University of Duisburg-Essen
- Designed the platform to centralize academic and relocation resources and managed the project across the full software development lifecycle, from UI/UX and development to debugging and iterative improvements

Raytracer | *C++* Oct. 2023 – Jan. 2024

- Created a raytracer project using C++ and Object-Oriented Programming

Neural Network | *MatLab* Apr. 2024 – Jun. 2024

- Developed a convolutional neural network (CNN) on Matlab, trained it using data from the MNIST database and optimized it to achieve 95.3% accuracy

Technical Skills & Languages

Languages: Python, C++, PHP, TypeScript, SQL, HCL, MatLab
Frameworks & Libraries: Vue.js, Next.js, Tailwind CSS, pandas, NumPy, pytest, unittest, scikit-learn
DevOps & Infrastructure: Git, Docker, GitHub Actions, Microsoft Azure, PostgreSQL, Confluent Cloud, Terraform, Apache Kafka
Cloud & Enterprise Tools: Power BI, Microsoft Excel, Power Automate, ServiceNow, Collibra, Copilot Studio
Languages: English (C2), German (C1), Hindi (C1)

Volunteering

Vice President and Technical Member Nov. 2024 – Present

Student Council ISE (International Studies in Engineering) *Duisburg, Germany*

- Helped lead the student council by organizing regular meetings with professors and participating in collaborations with other councils
- Collaborated with the technical team to plan and organize engineering-focused events and workshops
- Co-organized hands-on workshops, including Hackathons, a Robotic Arm Workshop and a 3D Design Workshop, to enhance practical skills among students

International Referent Nov. 2024 – May 2026

AStA Duisburg-Essen *Duisburg, Germany*

- Planned and organized cultural, social, and informational events to support international students in integrating into German society and university life
- Responded to inquiries from international students regarding housing, finances, and bureaucratic procedures via email and in-person support
